

BRAVURA CONNECTIVITY

BABEL

Bravura's Babel is a unique funds network of networks. It enables fund managers, asset servicers and distributors, such as platforms and wealth managers, to connect to any funds network or messaging platform as well as any transfer agency (TA) system and other third-party TA infrastructure. This means eliminating multiple network and TA connections and the associated business frictions, from connection monitoring to manually handling data.

As a platform-agnostic solution, Babel allows market participants to connect once and send and receive trade and settlement information with any member of the funds ecosystem, directly or via a specific funds network. Users have full visibility over the status of their trades while they can achieve efficiency gains with Babel's data transformation, enrichment, validation and capabilities.

The easy-to-access cloud-based solution is scalable, giving firms a way to flex with market movements so they can expand without enduring growth pains. It also gives users assurance that they are always up-to-date should changes to standards, formats or regulations occur.

BENEFITS

Unrivalled connectivity

Babel delivers up and downstream connectivity to all third-party fund trading networks such as SWIFT, Euroclear, Calastone, DTCC and many others.

Full back-office integration

Enables fund managers and distributors to leverage a range of fund networks or use Babel to directly integrate with any TA platform.

Scalability

The solution accommodates variable volumes to accommodate unexpected trading spikes with minimal operational impact.

Data optimisation

Babel provides data transformation, enrichment, validation and automated workflow services to deliver a cost-effective STP solution.

Holistic view

One connection to all fund networks gives users a complete picture of all their fund trading activity.

Speed to market

The ability to accept any message type makes it easy to onboard new fund clients and grow your business.

THE ONLY FUNDS NETWORK OF NETWORKS

Bravura's Babel eliminates operational frictions and frees up resource with its ability to connect funds networks and systems, while its rich functionality enables users to manage the whole trade lifecycle. The solution comprises a range of capabilities, including:

Connect to every funds network at once

Connect once via your preferred format, including proprietary and API, and you gain access to the full range of fund networks and TAs together with all their trading counterparties.

Trade lifecycle management

Babel facilitates the whole lifecycle of a trade, executing and tracking its journey from order placement to settlement.

Simple user interface

Provides transparency, monitoring and intervention where required, plus business intelligence and reporting capabilities.

Unified dashboard

One connection to all fund networks enables users to have a complete picture of all their fund trading activity and identify specific counterparty issues.

Message flow orchestration

Babel reorders bulk messages to put the required actions in their required order for processing.

Streamline back-office connectivity

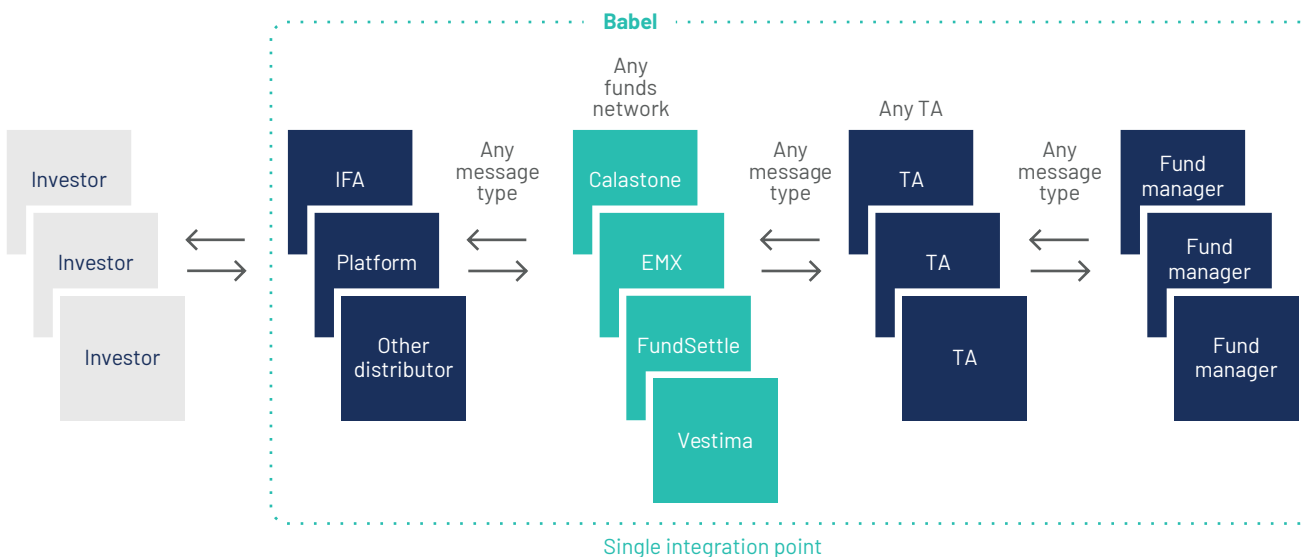

An open architecture solution, Babel will run on any hosting infrastructure and connect to any back-office system, in your chosen format.

Flexible approach

There is no need to customise your core technology platform – we simply agree on your preferred connection format, test and deliver it according to your business requirements. Your solution is then implemented outside business hours so there is no disruption to your day-to-day business.

Resilient

The cloud-hosted solution maximises your resilience and enables seamless and secure information sharing with your trading partners. You can also connect via any part of your technology stack using your chosen format.

WHY BRAVURA?

We have a proven track record. Every month we process £1 trillion's worth of transactions on behalf of global financial institutions. Our market-leading platform, financial messaging and integration solutions power mission-critical parts of many of these businesses. We are trusted not only for the quality of our technology but for its resilience in all market conditions.

We are the technology supplier of choice to the leading fund firms, asset servicers and wealth providers, serving the largest firms in these sectors. Our people are recognised for their exceptional know-how in the industry.

We continue to push out the boundaries with a relentless focus on the future, working with our clients and partners to develop innovative solutions that meet the industry's changing requirements.
