

BRAVURA

BABEL

AUSTRALIA AND NEW ZEALAND

In Australia and New Zealand, Bravura Babel automatically routes any volume of transaction and account messages between all their counterparties in compliance with SuperStream and KiwiSaver standards. It improves the quality and timeliness of the data reaching your fund while reducing the cost and risk posed by manual processing.

Through a single, secure connection, firms are connected to all their clients and members, from individual super accounts to registries and industry bodies. This eliminates the need to manage multiple systems and teams of people, speeding up processing times and reducing the risks posed by manual processing.

The cloud-native solution scales with your volumes to keep costs under control while it auto-updates to keep firms compliant with market change. Babel is certified as a message handler by the Australian Taxation Office (ATO) for SuperStream and Inland Revenue (IRD) for KiwiSaver.

BENEFITS

Cost controlled

Cloud-native solution automatically scales according to message volumes.

Compliant

Automatic technical and legislative updates meet all SuperStream and Kiwisaver standards while messaging always aligns to Standard Business Reporting (SBR) requirements.

Low touch

Automated solution saves cost and time by eliminating the need for multiple systems and teams of people.

Flexible connectivity model

One robust and secure connection to all your customers and partners (including superannuation registries and Bravura's administration system – Sonata) via API, or your preferred format.

SIMPLIFYING YOUR DATA FLOWS

Bravura Babel APAC supports all message format types and automatically translates to meet both the sender and receiver's requirements creating internal and external interoperability messages.

CONNECTIVITY

External connectivity

Easily integrates with superannuation and KiwiSaver networks, as well as messaging platforms, for full compatibility with current systems while remaining adaptable to future connectivity needs.

Easy to integrate

Connects to any back-office system to automate end-to-end workflows and reduce the chance of error and delay posed by manual processing.

DATA MANAGEMENT

Data transformation, enrichment & validation

Enhance data quality by identifying and resolving inconsistencies, ensuring accurate, reliable, and compliant data processing.

Robust data management & security

Safeguard data integrity with secure and compliant data handling within your organization and with third parties.

Scalable & resilient architecture

Cloud-based design fuels scalability by accommodating varying message volumes.

Auto updates

Regulatory and messaging changes are automatically passed through to users.

COMPREHENSIVE SERVICE

Complete SuperStream message support:

- **Contributions:** Facilitates employer payments to member super funds, ensuring accurate payment amounts and member allocations.
- **Rollovers:** Enables fund transfers with precise member identification and account details.
- **Member registrations & updates:** Ensures accurate, compliant submissions of new member details and updates to existing records.
- **Employer updates:** Maintain regulatory compliance with up-to-date employer data.
- **ATO member reporting and enablement services:** Supporting SuperTICK, FVS, SuperMatch, MAAS and MATS.

Full KiwiSaver message support

Enables structured, compliant transmission of contribution, withdrawal, and member transaction data, ensuring accuracy and adherence to regulatory standards.

WHY BRAVURA?

We are trusted for the quality of our technology and resilience in all market conditions. We are the technology supplier of choice to the leading fund firms, asset servicers and wealth providers, serving the largest firms in these sectors. Our people are recognised for their exceptional know-how in the industry.

We continue to push out the boundaries with a relentless focus on the future, working with our clients and partners to develop innovative solutions that meet the industry's changing requirements.
